

ALFRED TEVES BRAKE SYSTEMS (PTY) LTD

QUALITY POLICY

Company Quality Objectives

It is the company's quality objective to consistently produce brake pads and source product components at a competitive price within the required time and at a quality level which is to meet pre-determined targets.

Company Quality Policy

Quality plays one of the most important roles in achieving the company's objectives as it directly affect customer relations, productivity and profitability of the company, therefore the quality program is given top priority.

Quality at Alfred Teves Brake Systems (Pty) Ltd is perceived as an inter disciplinary function involving all organizational elements from initial quotation through production and delivery to after sales service.

Alfred Teves Brake Systems (Pty) Ltd Quality Management System has been designed to comply with ISO 9001:2008 code of practice as well as Customer Specific requirements such as ISO/TS 16949:2009.

The emphasis of the company is to manufacture & distribute high quality products to the industry.

The achievement of the quality objectives is attained by each employee performing his/her assigned work in strict compliance with approved procedures in an ethical manner.

Personnel training and development plays a key role in "Following the RARE" philosophy adopted by the company.

By signing this policy, the management team of Alfred Teves Brake Systems (Pty) Ltd demonstrated its total commitment to the full and effective implementation of the quality management system.
